## Turn MDF Into Measurable Growth

Over 60% of Market Development Funds (MDF) go unused each quarter by partner-led IT service providers. This creates a significant untapped opportunity for vendor-funded growth and elevated partner status in your business.

In practice, most IT and professional services providers struggle to unlock the full value of Market Development Funds (MDF). Campaigns are reactive and compliance-driven, lacking clear impact for either your business or the vendor

MDF Maximiser transforms vendor funding from a tick-box burden into a reliable revenue driver. We design, execute, and report on high-impact campaigns that build pipeline, strengthen vendor relationships, and prove ROI - while removing the admin and compliance headaches

## Key features

- **Strategic MDF Planning** - We co-design campaign plans with vendors that align with both your objectives and theirs. No more last-minute box-ticking
- **Co-branded GTM Execution** - From digital campaigns to events and thought leadership, we execute in line with your brand and growth strategy
- **ROI-Focused Reporting** - We manage reporting, claim compliance, and show tangible pipeline influence
- **Vendor Relationship Elevation** - We position you as a proactive, growth-oriented partner - not just a reseller - helping secure future investment
- **Rapid Partner Preference Elevation** - With disciplined execution and ROI transparency, MDF-funded campaigns elevate your standing with vendors making you stand out as a partner of choice
- **Quarterly Growth Rhythm & Flywheel Activation** - We help you embed MDF into a reliable growth engine.

## Professional Services Organisations Need A New Way Forward

IT Services and Consulting Partners need a way that redefines MDF as a growth engine, not a burden by shifting from compliance to outcome-driven campaigns, leveraging partner network effects, and embedding ROI reporting, to transform MDF into a consistent, revenue-generating programme.

### Why Choose Digital Pivot?

Unlike generic consultants or insourced teams, Digital Pivot brings fractional specialist expertise in Professional Services, with proven IP in challenger insight selling, and commercial rapid prototyping. Our proven track record will help you surface your unique IP, validate your growth direction, and equip your team to win in tomorrow's market.

- Proven expertise in IT and professional services GTM execution
- Unique ROI-first methodology for vendor-funded marketing
- A trusted partner who transforms MDF into measurable growth
